Review: Doxy Die Cast 3R

The Doxy Die Cast 3R is a powerful magic wand vibrator. This rechargeable version has the same power as the plug in Doxy wands but as it has no cable, it is even more user friendly.

Packaging

The Doxy 3R has 2 layers of packaging. The first is a cardboard box that has an outer sleeve. After the sleeve is slid off the box, the box itself has a couple of tabs that may not be the easiest to open for people with dexterity issues. The box then contains a metal cylinder which has a screw on top and bottom. The bottom section holds the charging cable, and the top section holds the Doxy wand. This case is really discreet and could be kept on show and no one would know what it was. The case is also great for transporting the wand if you want to take it on your travels.

The Product

The Doxy wand 3R is a powerful magic wand vibrator that has settings from 3000-9000rpm. The 3R version is rechargeable so you do not have to worry about the cable getting in the way when using it. It has a die cast body, and the head is made from premium silicone. The buttons are a good size, and the wand can be set to either constant or pulse mode. Pulse mode is activated by holding the power button for 3 seconds. Because the buttons are easy to push this is not too difficult to do. A full charge gives 60 minutes of use.

The 3R has an interchangeable head which make it easy to clean and there are 4 attachments that can be bought separately which include a clitoral Flutter, a rabbit, a prostate massager and a masturbator sleeve.

The wand is for external use only unless you add one of the internal pleasure attachments. The wand is not waterproof. It also has travel lock function, so you do not need to be worried of it switching on in your suitcase if you don't want to take the case. As well as being an amazing product for solo play, it's also great to use as a couple. Due to it being small for a wand style vibrator and cordless it can easily be used during sex.

The Pros

The Doxy wand 3R is very powerful and can also be used as a sports massager to ease aches and pains.

It is compact, and the packaging means it can be stored discreetly.

Big buttons

The Cons

Due to how powerful it is, some people may struggle holding it for a length of time. The Doxy 3R is noisy so may not be suitable for people who need to be discreet or have issues with noise.

Occupation Therapists View

The doxy wand is really powerful and can be good for those who have issues with sensation due to nerve issues or damage. It can also double up as a great massager to use on aches and pains. There are also wand mount style sex pillows available that can aid someone who has upper limb issues to still use a wand vibrator.

The Technical Stuff

Dimensions (approximate)

Body Length: 28 cm

Weight
350g

Materials
Aluminium, silicone

Packaging
Aluminium case

Price
The RRP is £147.99

About us

'Undressing Disability' is a global campaign which aims to raise standards in sexual health and sexual awareness for disabled people. Issues around sexuality and sexual frustration are frequently raised by disabled people who feel that they have less opportunity and ability to explore their sexuality than others. Through a lack of understanding, education and a general lack of services, disabled people frequently cannot access the support that would make it possible for them to make the sorts of choices about their lifestyles that most of us take for granted. As part of our campaign we run the Love Lounge, an online forum providing free advice on all things sex, love and disability. We also have free downloadable resources. As a user-led charity, our aim is to change the way people view disability, which often involves removing the 'fear factor' that so often surrounds the subject. We support businesses to be more inclusive by providing disability awareness training, British Sign Language workshops and accessibility audits, amongst other things.
